FREE · ONLINE · 7 WEEKS

Source Code *Accelerator*

A 7-week online program for software developers in Iraq. AI can now produce a lot of code, but it still cannot beat human ingenuity, empathy, ethical judgement and creativity. That part is your job, and this program will teach you to do it well.

WHO
Software developers in Iraq, aged 18–35

FORMAT
7 weeks online, one live Zoom session a week

COST
Free

LANGUAGE
English

What you'll learn

FIRST HALF · HUMAN SKILLS

01 Presence, Purpose and the World Ahead
02 Writing, Feedback and Working with Others
03 Problem Framing and Systems Thinking
04 AI Risks and Ethics

SECOND HALF · HANDS-ON WITH AI

05 AI for Good and Open Models
06 Agentic Development
07 Code Review, Trust and Security
08 Building and Evaluating with Models

Topics may change at the organisers' discretion.

You'll walk away with

- A clear view of where AI helps your work, and where it gets in the way
- Habits for reviewing, testing and securing AI-generated code
- The ability to evaluate a model before you trust it
- A final project that simulates a real workplace scenario
